SUMMARY

Front-End Developer and Computer Science undergraduate with hands-on experience building responsive, scalable web applications using React.js, Next.js, TypeScript, Redux, and Tailwind CSS. Delivered production-ready projects including a full-featured e-commerce platform, an admin dashboard with theme switching, and a deployed portfolio on Vercel. Eager to bring strong front-end skills to an internship where I can tackle real challenges, grow within a professional team, and make a measurable impact.

EXPERIENCE

E-Commerce Website

May / 2026 — June / 2026

- Built a full-featured e-commerce application with React, implementing scalable state management using Redux.
- Designed and developed key functionalities such as product browsing, cart management, and dynamic filtering.
- Improved user experience through responsive design, reusable components, and efficient API handling.

My Portfolio Website

March / 2026 — May / 2026

- Needed a visually engaging online presence that goes beyond a static page to create a memorable recruiter experience
- Designed a multi-page portfolio with animated particle backgrounds, a typewriter hero section, 3D tilt card effects, a live GitHub activity calendar, and an in-browser resume viewer — all wired into a smooth, cohesive user experience.
- A fully responsive portfolio combining 6+ third-party libraries into a cohesive UI that demonstrates both technical depth and UI craftsmanship

Social Media Dashboard

January / 2026 — March / 2026

- Users of social media analytics tools need to view follower stats and engagement data at a glance, across both light and dark display preferences.
- Replicated a pixel-perfect dashboard design from provided specs, implementing a smooth dark/light theme toggle, platform-specific color coding (Facebook, Twitter, Instagram, YouTube), and fully responsive layouts for 375px mobile and 1440px desktop.
- Delivered a faithful implementation matching the design across all breakpoints, demonstrating precision in translating Figma-level specs into clean, structured HTML/SCSS.

VOLUNTEERING

AIESEC | Incoming Global Volunteer (IGV)

March / 2026 — May / 2026

- Supported 6+ international volunteers throughout the application and onboarding process, ensuring a smooth and engaging volunteer experience.
- Collaborated with a cross-functional team of 10+ members to manage volunteer applications, coordinate project operations, and maintain effective communication.
- Strengthened leadership, problem-solving, and intercultural communication skills by contributing to community-driven initiatives and working with participants from diverse backgrounds.
