Summary

Aspiring **Front-End Developer** and **Computer Science undergraduate** focused on building responsive and user-friendly web applications. I develop clean and scalable interfaces using modern frameworks and technologies including **Next.js**, **React.js**, **TypeScript**, **Bootstrap**, **Tailwind CSS**, and **Sass**, applying strong **problem-solving** skills and attention to detail. I aim to contribute to real-world projects in a professional environment where I can grow my technical expertise and deliver meaningful **value**.

Education

October 6 University | bachelor’s degree in computer science

Giza, Egypt | 9-2023 — *Present*

- Grade: Third Year
- Major: CS
- GPA: 3.11

Projects

E-Commerce Website

March - 2026 — *Current*

- Built a full-featured e-commerce application with React, implementing scalable state management using Redux.
- Designed and developed key functionalities such as product browsing, cart management, and dynamic filtering.
- Improved user experience through responsive design, reusable components, and efficient API handling.

My Portfolio Website

March - 2026 — May - 2026

- Developed a fully responsive portfolio website using React to showcase projects and skills.
- Implemented modern UI/UX principles with reusable components and optimized performance.
- Deployed the application on Vercel with a focus on accessibility and cross-browser compatibility.

Admin Dashboard

January - 2026 — March - 2026

- Designed and developed an admin dashboard interface with responsive layout and modular components.
- Implemented theme switching (Dark — Light) mode with state management and persistent user preferences.
- Enhanced usability through clean UI design and optimized component structure.

Volunteering

AIESEC | Incoming Global Volunteer (IGV)

March - 2026 — May - 2026

- Supported 6+ international volunteers throughout the application and onboarding process, ensuring a smooth and engaging volunteer experience.
- Collaborated with a cross-functional team of 10+ members to manage volunteer applications, coordinate project operations, and maintain effective communication.
- Strengthened leadership, problem-solving, and intercultural communication skills by contributing to community-driven initiatives and working with participants from diverse backgrounds.

Hard Skills

- **Programming Languages:** C++ | JavaScript | TypeScript
- **Front – End:** HTML | CSS | SASS | Bootstrap | Tailwind CSS | Next.js | React.js | Redux | Vite
- **Tools:** VSC | NPM | Git & GitHub | Vercel | Adobe | Figma
- **Database:** MySQL

Soft Skills

Effective Communication | Active Listening | Flexibility | Critical Thinking | Adaptability | Time Management | Project Management | Problem Solving

Languages

- Arabic (Native)
- English (Fluent)
- French (Beginner)

Certificates

- | | |
|--|---|
| • Full Front End Developer Learning Path | <i>Free Code Camp / March - 2026</i> |
| • CS50W — Web Programming | <i>Harvard University / February - 2026</i> |
| • CS50X — Introduction to Computer Science | <i>Harvard University / December - 2025</i> |

Interests

Sports, Fitness, and Outdoor Activities (Football, Gym, Travelling) | Music | Networking & Student Events | Mental Hobbies (Reading, Chess, Coding)
